Front-End Skills: HTML, CSS, JavaScript, Tailwind, React

API Handling: REST API

Back-End Skills: Node.js, Express

Projects

E-Commerce dashboard using MERN
- Implemented login and signup.
- Implemented optimal API integration using REST APIs and performed CRUD operation, like creating, listing, updating and deleting products.

Blogify - Blog App (NodeJS, ExpressJS, MongoDB, EJS, Bootstrap)
- Developed a backend server with efficient routing and middleware handling.
- Implemented non-blocking, event-driven server-side logic for high performance.
- Utilized dynamic HTML rendering with reusable templates for front-end views.
- Managed data with a flexible and scalable NoSQL database.
- Enhanced UI/UX with responsive design and pre-styled components.
- Scaled the application across multiple CPU cores to handle high traffic loads efficiently.

Passop: Secure Password Manager (React, Tailwind CSS)
- Secure storage and retrieval of passwords with copy-to-clipboard functionality.
- Implemented responsive design principles to ensure the website adapts seamlessly to different screen sizes and devices.
